Under California law, a health care provider may decline to permit inspection or provide copies of mental health records only if the provider determines there is a substantial risk of significant adverse or detrimental consequences to a patient in seeing or receiving a copy of her/his mental health records. If determined, the health care provider shall make a written record, to be included with the mental health records requested, noting the date of the request and explaining the health care provider's reason for refusing to permit inspection or provide copies of the records, including a description of the specific adverse or detrimental consequences to the patient that the provider anticipates would occur if inspection or copying were permitted. The health care provider shall permit inspection by, or provide copies of the mental health records to, a licensed physician and surgeon, licensed psychologist, licensed marriage and family therapist, licensed clinical social worker, or licensed professional clinical counselor, designated by request of the patient.
